Sample abstract for the conference Data Science, Statistics & Visualisation (DSSV 2017)

A.B. Charleston[a], D.E. Foxtrot[b] and G.H. Ikariotikos[c]

[a]*Alpha Institute,* [b]*University of Beta,* [c]*Gamma Company*

The title should be at most 15 words. The abstract should fit into a page of size A4, no page number. The manuscript should be submitted in the form of a simple Latex syntax (can be used, e.g. $\hat{x}_i$, β, etc). You can also include a few optional references, such as [1], [2] or [3]. Plain text should be used and without any accents. The LaTex source file .tex can be used as a template.

By submitting an abstract the authors agree to its publication at the conference programme.

Keywords: Data science, Statistics, Visualization. (Use at most 3 keywords)
